

Getting lab work??

Please read below for an important update regarding **Outpatient Laboratory Providers** with **Independence Blue Cross**.

Effective **July 1st, 2014**, **LabCorp** will be IBC's Exclusive National Outpatient Laboratory Provider. Quest Diagnostics will no longer be considered an in-network provider.

How does this affect me?

If you currently use Quest Diagnostics for your lab work, you will need to switch to an in-network lab or face higher fees for your services. As of July 1, Quest will be considered an out-of-network provider.

To find a LabCorp near you, visit www.labcorp.com.

To find other in-network outpatient providers, visit IBXpress.com
