

10th Developmental Program

Sophomores

Counselors will meet with all Sophomore's in classroom sized groups, covering a Career Unit.

On Day one, a discussion about careers will challenge students to identify careers based on their interest, ability and the job market. An in depth look at what careers are growing from a local, state and national perspective will be discussed. Post-secondary training and its link to in demand careers will be looked at. The rising costs of education and the disconnect between colleges and the job market will also be examined.

On Day two, sophomore's will complete the **Cluster Finder** interest and ability inventory in **Naviance**. Using a career identified with this inventory, sophomore's will research a career using the **Occupational Outlook Handbook**. They will answer a series of questions about the career they choose
