

Tech Requirements

Browser

We recommend you use Google Chrome when accessing your course.

Plugins

Javascript must be allowed in your web browsers settings. The instructions below will show how to enable Javascript.

<https://www.whatismybrowser.com/guides/how-to-enable-javascript/>

Java may be required for certain assignments within your course. You may follow the instructions below to install Java.

<https://www.whatismybrowser.com/guides/how-to-install-java/>

Content Filters

Please be sure you are allowing access to the following websites:

- founders.edtell.com
- founderseducation.adobeconnect.com/instantteacher
- lrs.edtell.com
- xapi.edtell.com
- mathjax.org
- cloudflare.com
- w3.org
- vimeo.com

Videos

If the computer you are working on has vimeo.com blocked, please refer to the directions below.

These steps would enable students to access the Founders Education embedded videos, without allowing access to “vimeo.com” more broadly (for administrators only):

- Unblock vimeocdn.com, vimeo.com/api, player.vimeo.com
- Add vimeocdn.com, vimeo.com/api, player.vimeo.com as Allowed Referrers
- Ensure your web filter allows secure (encrypted) requests from vimeo.com
- Clear the browser cache (in chrome, safari etc.
