

WEST CHESTER AREA SCHOOL DISTRICT
East Goshen Elementary School

Dennis M. Brown, Principal

From the Guidance Office:

As part of creating and maintaining a positive social climate, East Goshen has implemented various programs related to conflict resolution and social skills training. Current programs include Conflict Managers, individual/small group counseling, classroom guidance lessons, Second Step, and bullying prevention lessons provided by The Crime Victims Center of Chester County.

Presenters from The Crime Victims Center will be coming to East Goshen on March 3rd and 4th to present a lesson on bullying prevention. Your child's teacher will sign up for a lesson within the scheduled dates. Students will learn about ways to interact positively with peers and will be taught a number of strategies for handling bullying and teasing.

Sometimes following the bullying prevention programs, students will talk to their teacher, school counselor, and/or their parents about someone who may be bothering them. If your child mentions any concerns to you, please call your child's teacher and/or the school counselor, Joy Geist, so that it can be promptly addressed.

If you have any questions, please call me!

Sincerely,

Ms. C. Joy Geist

School Counselor
